

**“The Trick is Knowing Which Jig to Use for the Right Presentation”**

**Style: Weight Centered.**  
 Advantage: Falls in a horizontal plane, falls slowly snag resistant.  
**Presentation:**  
 1. Swim it, cast and retrieve.  
 2. Long line over bottom, drifting and dragging.  
 3. Swim it in river current.  
 4. Weedmaster, wood, weeds and rock.

**Style: Weight Forward.**  
 Advantage: Stays in a horizontal plane when "Vertical Jigging". Standup position on bottom.  
**Presentation:**  
 1. Vertical jigging.  
 2. Standup when dropping or dragging on bottom.  
 3. Pitching to structure and following contours.  
 4. Rig weedless for wood, weeds and rock.
